

HARSH VISHNOI

Noida, India | vishnoiharsh793@gmail.com | +91-7895767272 | [LinkedIn](#)

PROFESSIONAL SUMMARY

Software Engineer with **2+ years** of experience building scalable full-stack applications using **Python (FastAPI), React.js, Next.js, TypeScript**, and **MongoDB**. Experienced in designing **REST APIs, AI-powered application features, AWS cloud services**, and **modern frontend architectures**. Hands-on experience with **Amazon Bedrock, LLM integrations, LangGraph-based multi-agent systems, RAG pipelines**, and **MCP integrations**. Passionate about building production-ready AI applications and currently expanding expertise in **Agentic AI** and **cloud-native AI solutions**.

WORK EXPERIENCE

INSYNCHRO GROUP Remote, India

Software Engineer

Jan 2025 – Present

- Architected **scalable mobile (React Native)** and **web application (React.js)** called [Palms](#) that visualized construction project performance on an interactive map, enabling teams to access site details and updates in real time.
- Designed and developed **robust, high-performance backend REST APIs** using **Node.js, Express.js, Flask**, and **Python FastAPI**, powering enterprise applications with **AI-enabled workflows** and reducing server response time for ExecutiveEye enterprise applications.
- Developed **modern, responsive React.js and Next.js interfaces** integrating **AI-powered backend services**, using Tailwind CSS and DaisyUI for fast, user-friendly enterprise platforms.
- Optimized application performance using **React hooks, Context API**, and **lazy loading**, improving load times and user experience by 30%.
- Built **cross-platform mobile application using React Native (Expo)** [Xeye-Intelligence](#) and integrated **TanStack Query** for efficient faster data fetching, caching, and state management.
- Performed **API testing, debugging**, and **validation using Postman**, ensuring stable and reliable backend integrations.
- Followed **Agile development methodology**, using **Jira** to create tasks, manage sprints, write user stories, and track development progress while collaborating with teams using **Git-based version control (Bitbucket)** to maintain high code quality and **CI/CD pipeline** for efficient development workflows.

TECHNICAL SKILLS

- Languages:** Python, TypeScript, JavaScript (ES6), SQL, HTML5, CSS
- AI / Agentic Engineering:** LLMs, AI Agents, LangGraph, LangChain, RAG, Prompt Engineering, Embeddings, Vector Search, Amazon Bedrock, Amazon Nova, OpenAI API, MCP / FastMCP, Cursor AI, Claude Code
- Frontend:** React.js, Next.js, React Native (Expo), Tailwind CSS, DaisyUI
- Backend:** FastAPI, Flask, Express.js, Node.js, NestJS, REST APIs
- Databases:** MongoDB, MySQL, S3 Vectors
- Cloud (AWS):** EC2, Lambda, API Gateway, IAM, S3
- DevOps & Tools:** Docker, Linux, Git, Bitbucket, GitHub Actions, CI/CD, Vercel, Postman, JIRA, UAT

PROJECTS

XEYE-NEXTGEN – Multi-Agent AI Platform [\(Link\)](#)

Full Stack / AI

- Designed and built a **LangGraph-orchestrated multi-agent AI system** (text agent + Amazon Nova Sonic voice agent) for a multi-tenant SaaS platform, with intent classification, out-of-scope query guardrails, and project-scoped vs. workspace-wide retrieval.
- Implemented **RAG-based retrieval** using **AWS Bedrock and S3 Vectors**, with strict tenant isolation to keep data securely scoped across tenants.
- Built an **MCP (Model Context Protocol) integration layer** connecting Oracle Primavera P6 and Unifier — a 97-tool FastMCP server with a sync engine, field mapping, and encrypted tenant credential management.
- Developed **AI-powered conversational assistants** using **Amazon Bedrock and LangGraph**, featuring intelligent query routing, tool calling, and contextual retrieval across project and workspace scopes.

Tech Stack: LangGraph, AWS Bedrock, Amazon Nova Sonic, MCP/FastMCP, Next.js, FastAPI, MongoDB, Docker

CertifySphere – Software Innovation & Learning Platform [\(Link\)](#)

Full Stack

- Built an **AI-powered mock test system** for certification preparation with multi-level assessments.
- Developed **pre-built fintech solutions** including banking UI, trading platform interfaces, and a news aggregation platform.
- Created **software templates and admin dashboard solutions** for SaaS and enterprise applications.
- Designed a **product marketplace** to showcase and distribute SaaS tools, templates, and ready-to-use software products.

Tech Stack: Next.js, Node.js, OpenAI API, MongoDB, Tailwind CSS, Vercel

Event-Driven Serverless API on AWS

Serverless Cloud Backend API

- Developed a **serverless REST API using AWS Lambda and API Gateway**, eliminating server management and enabling faster backend development.
- Implemented an architecture that **automatically scales based on demand**, improving efficiency and reducing operational overhead by **~60% compared to traditional server-based APIs**.

Tech Stack: AWS Lambda, Amazon API Gateway, Node.js, REST API, Serverless Architecture

EDUCATION

TEERTHANKER MAHAVEER UNIVERSITY, MORADABAD, INDIA

Bachelor of Technology in Computer science-GPA (8.1/10) Aug 2021 – May 2025

GANDHI NAGAR PUBLIC SCHOOL, MORADABAD, INDIA

SENIOR SECONDARY EDUCATION (INTERMEDIATE)-GRADE: 76.2% April 2020 – April 2021

CERTIFICATIONS

- ORACLE CLOUD INFRASTRUCTURE 2025 CERTIFIED AI FOUNDATIONS ASSOCIATE** [ASSOCIATE](#) Sep 2025 – Sep 2027
- INTRODUCTION TO PROMPT ENGINEERING WITH GITHUB COPILOT [\(SIMPLILEARN\)](#)
- Introduction to **GitOps** (LFS169) [\(THE LINUX FOUNDATION\)](#) Jan – 2025
- Advanced **Project Management: Strategies For Success** [\(UDEMY\)](#) Oct 2024- Oct 2028
