PROFESSIONAL SUMMARY

AI Software Engineer with 2+ years of experience building enterprise-scale **AI-powered** web and mobile applications. Experienced in designing scalable **backend** systems, modern **frontend architectures**, and intelligent AI solutions using **FastAPI**, **React.js**, **Next.js**, **AWS**, **Amazon Bedrock**, **LangChain**, **LangGraph**, and **Retrieval-Augmented Generation (RAG)**. Experienced in developing AI chat and voice agents, **REST APIs**, **cloud-native** applications, **CI/CD pipelines**, and **production monitoring**. Passionate about building intelligent software that **automates workflows**, **accelerates** decision-making, and **delivers** measurable business impact.

WORK EXPERIENCE

INSYNCHRO GROUP OF COMPANIES <i>AI Software Engineer</i>	Remote, India Jan 2025 – Present
- Engineered AI Chat, AI Voice Agent, AI Insights, and Executive Reporting using Amazon Bedrock, LLMs, LangChain, LangGraph, and RAG, enabling intelligent project analysis and automated decision support. Built MCP/FastMCP-powered integration adapter for Oracle Primavera P6 and Oracle Primavera Unifier, enabling secure bidirectional project data synchronization, configurable field mapping, workflow automation, advanced dashboards, and executive reporting within Xeye-NextGen. Designed and developed high-performance REST APIs using Python FastAPI, MongoDB, and MySQL, achieving average response time under 350ms; validated endpoints using Postman, and integrated backend services into Next.js applications to deliver fast, scalable, and responsive user experiences. Developed the Xeye-Intelligence cross-platform mobile application using React Native (Expo), integrating Python FastAPI, MySQL, and REST APIs to deliver real-time project data, seamless backend communication, and a responsive cross-platform user experience. - Owned end-to-end feature delivery by collaborating closely with product managers, stakeholders, and cross-functional engineering teams driving requirement analysis, Jira story creation, development, UAT, and production support to deliver high-quality, on-time enterprise software releases. Automated deployments using Docker, GitHub Actions, Terraform, and AWS, while monitoring production environments using Grafana and Prometheus. - Collaborated in Agile/Scrum teams using Jira, Git, Bitbucket, and CI/CD pipelines to deliver scalable enterprise software.	

TECHNICAL SKILLS

Languages: Python • TypeScript • JavaScript (ES6) • HTML5 • CSS3
AI Engineering: LLMs • AI Agents • LangChain • LangGraph • RAG • Prompt Engineering • Amazon Bedrock • OpenAI API • MCP/FastMCP • Cursor AI
Frontend: React.js • Next.js • React Native (Expo) • Tailwind CSS • DaisyUI
Backend: FastAPI • Node.js • Express.js • REST APIs • Pydantic
Databases: MongoDB • PostgreSQL • MySQL • DynamoDB
Cloud & DevOps: AWS • Docker • Terraform • GitHub Actions • CI/CD • Grafana • Prometheus • Linux
Tools: Git • Bitbucket • Jira • Postman

PROJECTS

XEYE-NEXTGEN – Enterprise AI Project Intelligence Platform (LINK) <i>AI Software Engineer inSynchro Group of Companies</i>	Full Stack / AI Jan 2026 – Present
Developed an enterprise AI-powered project intelligence platform that centralizes construction project data, analytics, AI insights, and executive dashboards into a unified decision-support system. - Engineered AI Chat, AI Voice Agent, AI Insights, and Executive Reporting using Amazon Bedrock, LangChain, LangGraph, RAG, and LLMs, enabling intelligent project analysis and conversational AI experiences. - Built scalable modules for Project Management, Media Management, Workflow Automation, Analytics, Real-Time Monitoring, and interactive dashboards using React.js, Next.js, FastAPI, MongoDB, and TypeScript. - Integrated Oracle Primavera P6, Oracle Primavera Unifier, and external enterprise systems through MCP/FastMCP to synchronize schedules, contracts, and project data securely across tenants. - Implemented cloud-native deployment, CI/CD pipelines, infrastructure automation, and production monitoring using AWS, Docker, Terraform, GitHub Actions, Grafana, and Prometheus. Tech Stack: React.js • Next.js • TypeScript • FastAPI • MySQL • MongoDB • AWS • Amazon Bedrock • LangChain • LangGraph • RAG • MCP/FastMCP • Oracle Primavera P6 • Oracle Primavera Unifier • Docker • Terraform • GitHub Actions • Grafana	
BUNNY BOBA – Business Website (LINK) <i>Freelance Full-Stack Developer</i>	Full Stack Oct 2024 – Jan 2025
Designed and developed a responsive business website for Bunny Boba LLP, strengthening the brand's digital presence and customer engagement. - Built modern user interfaces and backend functionality using React.js, Node.js, Express.js, MongoDB, and Tailwind CSS with a focus on scalability, responsiveness, and performance. - Implemented responsive layouts, dynamic content management, and REST API integrations to deliver a seamless cross-device user experience. Tech Stack: React.js • Node.js • Express.js • MongoDB • Tailwind CSS • REST APIs	

EDUCATION

TEERTHANKER MAHAVEER UNIVERSITY, MORADABAD, INDIA Bachelor of Technology (B.TECH) in Computer science-GPA (8.1/10)	Aug 2021 – May 2025
GANDHI NAGAR PUBLIC SCHOOL, MORADABAD, INDIA SENIOR SECONDARY EDUCATION (INTERMEDIATE)-GRADE: 76.2%	April 2020 – April 2021

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified AI Foundation Associate	Sep 2025 – Sep 2027
Introduction To Prompt Engineering With GitHub Copilot (SIMPLILEARN)	
Introduction to GitOps (LFS169) (THE LINUX FOUNDATION)	Jan 2025
Advanced Project Management: Strategies For Success (UDEMY)	Oct 2024 – Oct 2028
